

Report on Impact of Exemptions from Liability

Department of Natural Resources

September 15, 2006

Section 292.25, Wis. Stats., requires the Department of Natural Resources to prepare a report that provides an update on the status of the Voluntary Party Liability Exemption. This report is required to be submitted to the Legislature, the Governor, and the Department of Administration.

Any individual, business or unit of government that conducts an environmental investigation and cleanup of a contaminated property – following state requirements with the oversight of Department of Natural Resources (DNR) staff – can receive an exemption from future environmental liability. The Voluntary Party Liability Exemption (VPLE) is implemented by the DNR and described in s. 292.15, of the Wisconsin Statutes. This exemption was initially created in 1994 by Wisconsin Act 453.

A. Sites Seeking Liability Exemption

As of September, 2006, there were 128 sites which are undergoing an investigation and cleanup in order to receive a Certificate of Completion in the Voluntary Party Liability Exemption process.

B. Certificates of Completion

There are 63 sites for which a Certificate of Completion has been issued by the Department.

C. Sites with additional contamination discovered after Certificate of Completion was issued

There are no sites for which a Certificate of Completion was issued where it discovered that the cleanup failed or at which additional hazardous substances were found after the Certificate of Completion was issued.

D. Use of Environmental Fund money on remedial actions and estimated costs at sites where Certificate of Completion was issued

The Department determined that it was not necessary to conduct remedial actions using the environmental fund at any of the sites that have received Certificates of Completion and no money is expected to be spent.

E. VPLE sites that obtained insurance

As of September 2006, there were 12 sites where the voluntary party obtained insurance as required by s. 292.15(2)(ae), Stats. and ch. NR 754, Wis. Adm. Code. No claims were against an insurance policy for any of these sites.
